<u>FIRST TERM ENGLISH TEST</u>		

Read the text carefully then do the following activities

A/Comprehension (7pts)

Read the text carefully then do the following activities

Over the last century, there have been many changes in the way we lived. It is hard to compare the life of the ancient people and the life of people of the 21st century because so many changes occurred. However, even the changes **that** have taken place over the last ten years were amazing.

To start with, people were not able to travel such long distances in such short period. **They** used to have traditional means of transportation like animals. Nowadays, we have fast and comfortable cars and planes. Moreover, in the past, people used to work much harder as they did not have tools. Nowadays, machines and computers do most of the dangerous and difficult work.

Another difference between living now and in the past is the fact that nowadays the access to education is much easier. In the past, there were fewer schools and the quality of education was much poorer. Besides, nowadays, it is easier to find teaching aids you need thanks to the Internet.

It is an obvious conclusion that life has changed significantly in the last couple of years. **It** becomes much faster and easier than it used to be in the past. However, it has also become more dangerous.
