Third Term English Exam

Pollution

Today, pollution is one of the biggest problems in our environment. It affects the air, the water, and the land. Many years ago, the environment was cleaner than it is today. Now, cities are more polluted than before because of cars, factories, and human activities.

Air pollution comes from cars and factories. It makes the air dirty and harmful for people. Water pollution happens when people throw waste into rivers and seas. As a result, water becomes more polluted and harmful to animals and humans. Land pollution is also a serious problem. People throw rubbish everywhere, and the environment has become dirtier than in the past.

People must understand that protecting the environment is very important. We must keep our streets clean and take care of nature. We mustn't throw trash on the ground or in the water. We mustn't cut too many trees because they help clean the air.

To reduce pollution, we should change our habits. We should recycle and use less plastic. We should walk or ride bicycles because they are better than cars. We should also plant more trees to make our environment healthier.

In conclusion, pollution is a dangerous problem, but we can fight it together. If everyone follows these rules, our world will be cleaner and safer for all.

I. Reading Comprehension (07pts)

Activity One: Read the text then write " True" or "False" (03pts)

- 1.The environment was cleaner before
- 2.Air pollution comes from throwing rubbish
- 3.Bicycles are worse than cars for the environment

Activity Two: Read the text again then answer the following questions (02pts)

- 1.What does air pollution come from?
- 2.Must we throw trash on the ground?

Activity Three:A/ Find in the text words that are closest in meaning to the following: (1pt)

Dangerous =

Necessary=

B/Find in the text words that are opposite in meaning to the following: (1pt)

The smallest ≠

Clean ≠

Mastery Of Language(07pts)

Activity One: Put the adjectives between brackets in the comparative form of superiority (3pts)

1. Water pollution is (dangerous)than land pollution on human health .
- 2.The environment today is (dirty) in the past.
- 3.Killing animals is.....(bad) cutting trees.

Activity Two: Link the following sentences using the connectors between brackets (2pts)

- a)The air is polluted./ b) Factories produce smoke. (so)
- a) We shouldn't waste water .b) it is an important natural resource . (because)

Activity Three : Circle the silent letters in the words below (2pts)

Listen – Knife – Why – Write

Situation Of Integration (06 pts)

Pollution has become a serious problem that threatens our planet Earth. You have decided to write an article on your Facebook page to make people in your city aware of the causes and the harmful effects of pollution on the air, soil and sea and suggest so solutions to reduce pollution .

Use : should /shouldn't / must / mustn't

These hints may help:

Clean cities regularly/ don't throw litter everywhere / recycle materials / reduce factories

waste/ don't cut trees

" every question is a chance to prove your understanding . Do your best !"

Happy holidays

Correction
